

Second cycle degree / Two Year Master in

Health Economics, Management and Policy

Duration

2 YEARS (120 CFU)

Language

ENGLISH

Place of teaching

BOLOGNA

Department

ECONOMICS

Type of access

OPEN ACCESS

with assessment of personal competencies

HEMAP prepares students for staff and executive positions in organizations and institutions involved in health care provision.

The programme aims at developing skills and expertise in the field of health economics and policy, health care management, health law and regulations.

The relevance to society of **health care** far exceeds the increasing economic prominence of this sector in the economy.

Such a relevance calls for staff and executives in health care organizations to be aware of **fundamental economic trade-offs, legal and regulatory restraints, ethical concerns** affecting the organizational logic in this sector.

Reasons to enrol

1

Acquire a solid knowledge of health economics and policy, health care management, health law and regulation

2

Gain experience on the field through workshops, internships and active learning

3

Multidisciplinary environment with International students and professors

4

Dedicated international mobility exchange opportunities

5

Find your career path in the healthcare sector

ECONOMICS	Health Economics and Management	Regulation in Healthcare	Economics of Healthcare Organization	Economic Evaluation and Health	Economics of the Biopharmaceutical Industry	Health Economics and Policy in Low and Middle Income Countries	Lifestyles and Health Outcomes
