Admission test
SAT
No language certification is required

An undergraduate degree course that offers a multidisciplinary training in the social sciences, from both a quantitative and a qualitative perspective.

The course provides students with **multidisciplinary preparation** which enables them to analyse the different facets of economic, political and social reality, both **nationally and internationally**.

Students will acquire the **quantitative skills** necessary for data analysis in the social sciences, and the **interpretative tools** to ask relevant questions and understand complex environments.

The course combines core teaching in **economics** and **political sciences** with training activities in **statistics**, **management** and **law**.

EPOS enables students to obtain a **degree** in either **Economics** or **Political Science**.

We expect students to find jobs in public administrations and private companies as specialists in management, economics, policy, and data science.
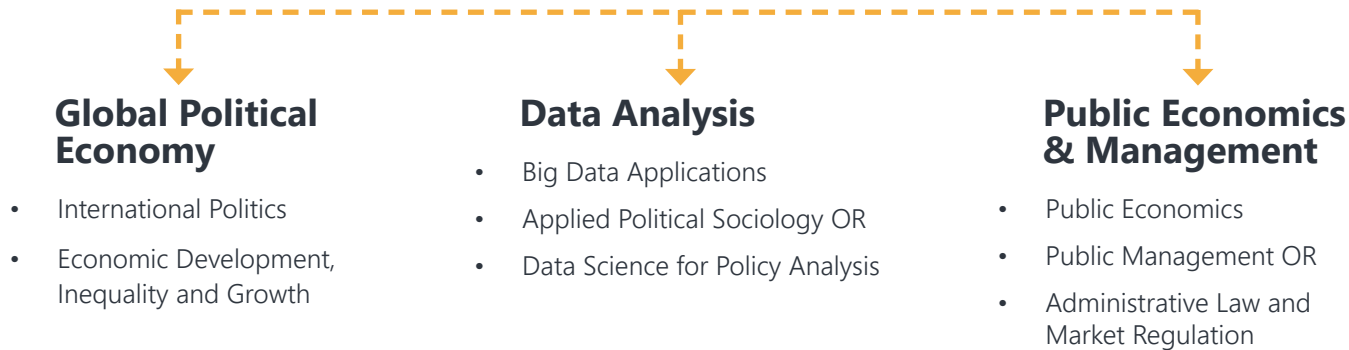

Graduates will be ready to apply to any master's degree in economics, political science, management, law and statistics of their choice.

ECONOMICS	Microeconomics	Macroeconomics	Political Economy		
POLITICAL SCIENCE, SOCIOLOGY	Global Connections: a Long-Term History	Sociology & Social Research	Political Behavior and Institutions

Reasons to enrol

1. You will obtain a solid multidisciplinary preparation, with training activities in the economic, political, statistical, legal, and management fields.

2. You will acquire the tools to use data for economic and socio-political analysis.

3. The course structure is tailored and updated based on the needs of both the private sector and public administration.

4. It allows access to master's degrees offered by all departments of Unibo's social area: economic, management, socio-political, legal and statistics.

5. It is a unique educational opportunity in Italy.
